

Sarvan Gill

MASc STUDENT · MECHANICAL ENGINEERING

University of Victoria, Canada

✉ sarvan13@uvic.ca | 🏠 <https://sarvan13.github.io> | 💻 <https://github.com/sarvan13>

Education

University of Victoria

MASc ROBOTICS

- Advisor: Dr. Daniela Constantinescu
- Current GPA: 4.0/4.0

Victoria, Canada

May 2024 - present

University of British Columbia

BASc IN ENGINEERING PHYSICS

- Graduated with Distinction
- GPA: 3.9/4.0

Vancouver, Canada

2017 - 2022

Industry Experience

2022-2023 **Amazon Web Services**, Software Engineer

2021 **Safe Software**, C++ Intern

2020 **Intel**, Firmware Intern

2019 **TRIUMF**, Research Intern

Publications

Gill, S, Constantinescu, D. "Off Policy Lyapunov Stability in Reinforcement Learning", Conference on Robot Learning, 2025

Awards, Fellowships, & Grants

2025	CoRL Travel Grant , Conference on Robot Learning	\$ 2,000 USD
	Graduate Research Fellowship , University of Victoria	\$ 18,000
2024	Graduate Award , University of Victoria	\$ 10,000
	Graduate Research Fellowship , University of Victoria	\$ 18,000
2022	Roy Nodwell Memorial Prize , University of British Columbia	\$ 2000
2021	1st Place , NwHacks	\$ 1500
2020	Trek Excellence Scholarship , University of British Columbia	\$ 1500
2019	Donald J. Evans Engineering Scholarship , University of British Columbia	\$ 500
	NSERC USRA , TRIUMF/University of Victoria	\$ 4,500

Presentations

INVITED TALKS

KAIST, October 2025. "Lyapunov Functions in Reinforcement Learning." Invited Talk at the Robust Intelligence and Robotics Laboratory at the Korean Advanced Institute of Science and Technology (Virtual)

Teaching Experience

2025W	MECH 242 (Dynamics I) , Teaching Assistant Instructor	UVic
2025W	MECH 342 (Dynamics II) , Teaching Assistant	UVic
2025S	MECH 242 (Dynamics I) , Teaching Assistant Instructor	UVic
2024S	MECH 242 (Dynamics I) , Teaching Assistant	UVic
2021W	Physics 100 , Teaching Assistant	UBC

Relevant Projects

- 2021-2022 **Modeling of Silicon Photonic Qubits**, Quantum Matter Institute
- 2020-2021 **Classification Model of Rare Kaon Decay**, TRIUMF
- 2019 **Autonomous Robot Competition**, 2nd Place @ UBC
